The publisher discontinued the legacy version on Dec. 1, 2018. After clicking the database link, follow the directions to access the new version, then create your free account.

Contains pharmacopeial standards for medicines, dosage forms, drug substances, excipients, medical devices, and dietary supplements.

It is a combination of the United States Pharmacopeia (USP) with monographs for drug substances & preparations and the National Formulary (NF) with monographs for excipients. Dietary supplements and ingredients appear in a separate section of the USP.
Go to https://guides.lib.utexas.edu/db/607. Click as shown.
Click the link to create a new USP Access Point account.
Complete the form and submit it. You will receive an access key via email. Use the key to access USP-NF.
Not working?
