Select BoardVitals
BoardVitals is an interactive, high-quality, effective and powerful board review tool that can be used by practicing clinicians, residents and several types of healthcare students. It allows for decreased study time, with everything organized under one platform and the best questions to study listed up front. With BoardVitals, you have the ability to create customized practice tests using many options including number or questions, subjects and more. Also included are detailed, up-to-date explanations with each answer, with references and links to applicable sources. BoardVitals contains the very best questions brought together from the leading medical publishers, research institutions and practicing clinicians.
For best results, use a utexas.edu email address to register.
Registering won’t provide immediate access. You’ll receive an email asking you to reply to confirm your institution. Once you reply, you should have access. If you don’t, try again in a few hours, or the next day.
UT Libraries currently provides access to **these 5 question banks only**. If you select any of the other question banks, you will be asked to purchase a subscription.
