Imelda Vetter, MLIS; Health Sciences Librarian, Dell Medical School Library, UT Austin
512-495-5221, imelda.vetter@austin.utexas.edu Office: HLB (Health Learning Building) Room 3.404

UT Libraries
- Dell Medical School Library - http://guides.lib.utexas.edu/medicine – The Dell Medical School Library is an electronic library. The website provides access to a curated collection of highly used resources for medicine.
- UT Libraries - http://www.lib.utexas.edu/. The UT Libraries website provides access to all library resources available at UT Austin. If interested in the print collections, visit the many libraries on the UT Austin campus, or search the library catalog and click on the “pick it up” link to reserve a book.

Seton Medical Libraries
- CEC (Clinical Education Center) Library - 1400 N. Interstate 35 Frontage Rd, Austin 78701. Room C2.303.
- Dell Children’s Medical Center Library – 4900 Mueller Blvd, Austin 78723. Room 35.053.
- The Seton Medical Library website is available through the Seton Intranet. This is where you can access several databases and set up your account for UpToDate (must register for account on a Seton computer).
- Seton Hospital Librarians:
  - Darlene Ennis - 512-324-9999 ext. 86741; dmennis@ascension.org
  - Sophia Conover - 512-324-9999 ext. 86745; Sophia.Conover@ascension.org

Accessing UT Library Resources
- Must have a UT EID and password to access UT Libraries’ electronic collections when not on campus (Seton hospitals are not within the IP range of UT campus, so you will need to login with UT EID and password to use the electronic journals, books, and databases).
- In order to access the full text articles of journals to which the UT Libraries subscribe, use the FindIt@UT button found in most databases.
- PubMed - for the FindIt@UT button to appear, you must enter PubMed from the Dell Medical School Library website, from the UT Libraries website, using this direct link: http://guides.lib.utexas.edu/db/299, or, by creating and customizing a My NCBI account in PubMed - instructions here: http://guides.lib.utexas.edu/medicine/articles
- If you want to access a specific electronic journal, go to the Journal Search tool from the UT Libraries homepage and enter the title of the journal.
On the search results page, follow the provided link(s) to the home page of the journal where you can browse the table of contents or initiate a search within the journal.

**UT Library Services**

- **Borrowing** - [https://www.lib.utexas.edu/find-borrow-request/borrow](https://www.lib.utexas.edu/find-borrow-request/borrow)
- **Interlibrary Services (ILS)**
  - To request a loan of a book not owned by UT Libraries - [https://www.lib.utexas.edu/find-borrow-request/interlibrary-loan](https://www.lib.utexas.edu/find-borrow-request/interlibrary-loan)
  - To request a scan of an article from a journal or a chapter in a book that is not available in the UT Libraries electronic collections - [https://www.lib.utexas.edu/find-borrow-request/get-a-scan](https://www.lib.utexas.edu/find-borrow-request/get-a-scan)
  - Typical turnaround time is one - three (3) business days for a scan, and 5+ days for a print book.
  - This is a free service.
- **Ask the Dell Medical School librarian** - Email, call, or meet virtually or face-to-face with Imelda Vetter for help with UT Library resources, database search strategies, or using reference management tools such as EndNote.
- If Imelda is not available and you need a question answered right away, try the Chat service at UT Libraries - [https://www.lib.utexas.edu/research-help-support/ask-us](https://www.lib.utexas.edu/research-help-support/ask-us)

**Google Scholar**

Configure your settings such that the FindIt@UT button and the Import into [a reference management tool] button appears on the results page:

A document with complete instructions on setting up Google Scholar is available at [https://utexas.box.com/s/ehp8f89ww8jgrpvypm3ykckjzc77r6](https://utexas.box.com/s/ehp8f89ww8jgrpvypm3ykckjzc77r6)
