UGS 302 – Culture of Patient Safety
Finding Resources

SYSTEMATIC APPROACH TO LOCATING INFORMATION (i.e., the evidence)

- **Tertiary Resources**
  - Summarized information to provide quick easy summary of a topic
  - Examples: textbooks, e-books, review articles from journals

- **Secondary Resources**
  - Resources that index or abstract journal articles
  - Examples: PubMed

- **Primary Resources**
  - Original data
  - Examples: clinical trials, scientific studies

ACCESSING RESOURCES

UT Libraries: [http://www.lib.utexas.edu](http://www.lib.utexas.edu) (select “Find, Borrow, Request”)
Find, Borrow, Request

Use online tools and information to find more information on over 10 million volumes in our collections as well as access online maps, images, databases, e-journals, e-books, news sources and government information.

TERTIARY RESOURCES

Resource: ClinicalKey
URL: http://guides.lib.utexas.edu/db/877

Resources: AccessMedicine
URL: https://guides.lib.utexas.edu/db/909
Highlight: access to reputable professional medicine textbooks
Resource: AccessPharmacy
URL: http://guides.lib.utexas.edu/db/566
Highlight: access to reputable professional pharmacy (or pharmacotherapeutic) textbooks

BIOMEDICAL RESOURCES FROM THE WEB

Health Conditions

Resource: MedlinePlus
URL: https://medlineplus.gov/
Highlight: excellent resource for consumer health information
Resource: Healthfinder
URL: https://healthfinder.gov/
Highlight: excellent resource for consumer health information
Resource: Centers for Disease Control and Prevention/CDC (health information)
URL: https://www.cdc.gov/
Highlight: among its many resources, it has excellent consumer health information

Resource: Mayo Clinic (health information)
URL: https://www.mayoclinic.org/patient-care-and-health-information
Highlight: excellent resource for consumer health information
Resource: Nexus Uni
URL: [http://guides.lib.utexas.edu/db/224](http://guides.lib.utexas.edu/db/224)
Highlight: latest news
SECONDARY RESOURCES

Resource: PubMed
URL: http://www.ncbi.nlm.nih.gov/pubmed
Highlight: most known secondary resource

Enter term in search box.

Search: “hyperlipidemia”
Filter search
**DON’T FORGET TO CLEAR FILTERS before next search

Examples of filters:
- Article type: clinical trials; review, etc.
- Species: humans
- Language: English
Resource: Google Scholar  
URL: https://scholar.google.com/
Highlight: An internet search engine designed to target scholarly materials online, including the area of health care; not all results are available for free access

Resource: Ulrichsweb Global Serials Directory  
URL: http://ulrichsweb.serialssolutions.com.ezproxy.lib.utexas.edu/  
Highlight: determine if a journal is peer-reviewed (aka “refereed”)  
Search: New England Journal of Medicine

Search Results

The New England Journal of Medicine

Refereed: Yes
